

PROFILE

Business graduate and hands-on project coordinator with a passion for game development and creative production. Proven ability to bring structure to evolving situations by managing production pipelines, maintaining team dashboards and ensuring cross-discipline alignment. Currently leading a multidisciplinary gamedev team.

Placed 4th at the Supercell AI Game Hackathon 2025.

Eager to learn and optimize team workflows using modern PM tools and AI, and to support the daily rhythm of live content teams.
